To Our Customers:

When I think back on the days when my dad, Alden Burge, smoked turkeys in a little smoke house in our back yard, we had no idea he was creating what would become our famous **Burge's** Hickory Smoked Turkeys and Hams, Inc. He and my mother, Margaret, bought a small restaurant in Lewisville, Arkansas and began selling our smoked turkey sandwiches along with a few side items. That's where I grew up - working the only job I've ever held. As our family business grew, we opened our restaurant in Little Rock, using our recipes and products that have stood the test of time.

By introducing a catalog and offering nationwide delivery, we have had an opportunity to share the best in the smoked meat business with people across the country. This catalog has expanded over the years as we have continued to meet changes in our customers' needs. I'm proud of our addition of some smaller sized hams and turkeys, as well as our original powder ham glaze, back by customer request.

We ship by UPS because of their excellent reputation. Their new ground coverage expansion enables us to pass savings on to you. As always, every item can be shipped any time of the year, sent with your complete satisfaction guaranteed.

Many of you have experienced our products before, either in the restaurant or shipped to your home. We welcome the opportunity of having you back again, and we appreciate it when you tell your friends about our delicious catalog items. If you are a first time customer, we thank you for trying our products. Our goal is to provide you the finest smoked meats available with the ease of ordering by mail, fax, or conversation with one of our friendly customer service representatives. You'll be impressed!

We are extremely grateful to our loyal customers and know that your patronage has made us successful. We are dedicated to remaining a part of your family tradition, as much as you are to ours.

Sincerely,

Jack Burge
President
